

Work Experience at Brookside Garage

A life-long interest in mechanics inspired Asha Williamson, a student at Ashby School to undertake a work experience placement at Brookside Garage in Ibstock learning how to carry out an MOT as well as how to change a cam belt.

Asha had the following to say about her Work Experience placement:

“I love it, it’s been great!”

“Don’t do something typically gender specific – go for something different if that’s what you want to do.”

Asha has fully embraced all aspects of her Work Experience and is inspirational for other students looking to enter careers that are dominated by one particular gender.
