

Work Experience F&W Plumbing & Heating Ltd

A fantastic opportunity recently arose for Guthlaxton Community College student, Megan Footman to undertake work experience with local plumbing firm, F & W Plumbing & Heating Ltd. The opportunity was unique in that it offered Megan the chance to experience hands on plumbing experience along with carrying out bookwork and administrative duties in the office.

Megan learnt many new skills during her time with F & W Plumbing & Heating Ltd, including the following:

- Tile cutting
- Grouting
- Invoicing
- General office skills including computer work
- Protocol of how to behave whilst working in people's homes

The job also involved a lot of manual work and Megan had the following to say:

“It was much harder work than I thought it would be”.
